How to Practice 2 Minute Guided Meditation

Getting started with a 2 minute guided meditation is simple and requires minimal preparation. Here's a step-by-step guide to help you engage in this quick yet beneficial practice:

Step 1: Find a Quiet Space

Choose a location where you can have a moment of peace. It doesn't have to be silent; just a place where you can focus without too many distractions.

Step 2: Get Comfortable

Sit or lie down in a comfortable position. Ensure that your body is relaxed, and you feel at ease. You can sit cross-legged on the floor, in a chair with

your feet flat on the ground, or lie down with your arms resting by your sides.

Step 3: Close Your Eyes

Gently close your eyes to minimize distractions. This will help you focus inward and tune into your thoughts and feelings.

Step 4: Start the Guided Meditation

You can use a pre-recorded guided meditation or create your own. If you're opting for a recorded session, there are many apps and websites where you can find short guided meditations. Here's a simple outline for your own guided meditation:

1. **Begin with Deep Breathing:** Inhale deeply through your nose, filling your lungs completely, and then exhale slowly through your mouth. Repeat this for a few breaths to settle into the moment.
2. **Focus on the Present:** Bring your awareness to your body. Notice any sensations, whether it's tension, relaxation, or warmth. Acknowledge these feelings without judgment.
3. **Visualize Calmness:** Imagine a peaceful scene, like a serene beach or a tranquil forest. Visualize yourself there, absorbing the tranquility of the environment.
4. **Set an Intention:** Think of a simple intention for your day, such as "I will be present" or "I choose peace." Repeat this intention silently to yourself.
5. **Gradually Return:** After two minutes, slowly bring your awareness back to the present. Wiggle your fingers and toes, and gently open your eyes.

Step 5: Reflect

Take a moment to reflect on how you feel after the meditation. Notice any changes in your mood, thoughts, or physical sensations. Acknowledge the time you took for yourself and the benefits of that brief moment of mindfulness.
