10 Minute Guided Meditation Script

Now that you are prepared, here's a detailed script you can follow for your 10-minute guided meditation. Feel free to adapt it to your personal style or preferences.

Introduction (1 minute)

"Begin by finding a comfortable position. You may sit or lie down. Allow your body to settle into this position, feeling the support beneath you. Gently close your eyes if that feels comfortable, or lower your gaze to a point in front of you. Take a deep breath in through your nose... and out through your mouth. As you breathe out, feel any tension begin to release from your body. Inhale deeply again...

and exhale slowly.”

Body Awareness (2 minutes)

“Now, bring your awareness to your body. Start at the top of your head and slowly scan down to your toes. Notice any areas of tension or discomfort. As you breathe in, imagine that you are drawing in warmth and relaxation. As you breathe out, visualize the tension melting away. Continue this process, moving from your head to your neck, shoulders, arms, chest, abdomen, back, hips, legs, and finally to your feet. Allow each body part to relax completely.”

Focusing on Breath (3 minutes)

“Now, shift your attention to your breath. Notice the natural rhythm of your inhalations and exhalations. Don’t try to change it; just observe it. Feel the cool air entering your nostrils and the warmth of your breath as you exhale. If your mind starts to wander, that’s okay. Gently guide your focus back to your breath. Count your breaths if it helps; inhale for four counts, hold for four counts, and exhale for four counts. Continue this for a few cycles.”

Visualization (2 minutes)

“Now, imagine a serene place. This could be a beach, a forest, or any place that brings you peace. Visualize yourself in this environment. What do you see? What sounds do you hear? What scents are present? Imagine the warmth of the sun or the coolness of the breeze. Allow yourself to fully immerse in this peaceful place. Spend a few moments exploring this serene environment in your mind.”

Returning to the Present (1 minute)

“Gradually bring your awareness back to the present moment. Start to notice the sensations in your body, the surface beneath you, and the sounds around you. Take a few deep breaths, inhaling deeply through your nose and exhaling through your mouth. When you feel ready, gently open your eyes. Take a moment before moving, allowing the peacefulness of your meditation to linger.”

Closing (1 minute)

“Thank yourself for taking this time for self-care and reflection. Remember that you can return to this meditation whenever you need a moment of peace. Carry this sense of calm with you throughout your day.”
