Performance and Engine Options

The 2023 Hyundai Santa Fe offers a range of powertrains designed to balance performance and fuel efficiency. This midsize SUV caters to various driver preferences, from those seeking robust power to others prioritizing economical operation. The available engines provide smooth acceleration, competent towing capacity, and refined driving dynamics.

Standard Gasoline Engine

The base powertrain is a 2.5-liter inline-4 engine producing approximately 191 horsepower and 181 lb-ft of torque. This engine is mated to an 8-speed automatic transmission, delivering a responsive driving experience suitable for everyday commuting and family trips.

Turbocharged Engine Option

For drivers desiring enhanced performance, the turbocharged 2.5-liter inline-4 engine generates 277 horsepower and 311 lb-ft of torque. Coupled with an 8-speed dual-clutch automatic transmission, this setup provides brisk acceleration and confident passing power on highways.

Hybrid and Plug-in Hybrid Variants

Hyundai has introduced hybrid and plug-in hybrid versions of the Santa Fe for the 2023 model year, combining a 1.6-liter turbocharged engine with electric motors. The hybrid system produces up to 226 horsepower, optimizing fuel efficiency without sacrificing capability. The plug-in hybrid offers an all-electric driving range suitable for short commutes and significantly reduces emissions.

- All-wheel drive (AWD) is available across most trims, enhancing traction and stability.
- Towing capacity ranges up to 3,500 pounds, depending on the engine and configuration.
- Driving modes include Eco, Sport, and Smart, allowing customization of throttle response and transmission behavior.

Interior Features and Comfort

The interior of the 2023 Hyundai Santa Fe is designed to provide both comfort and convenience for drivers and passengers. Premium materials, spacious seating, and thoughtful layout make it well-suited for daily use and long journeys alike.

Seating and Upholstery

The Santa Fe seats five occupants with ample headroom and legroom in both front and rear rows. Standard cloth upholstery is complemented by available leather-appointed seats in higher trims. Heated and ventilated front seats enhance comfort in varying weather conditions, while available heated rear seats provide additional luxury.

Climate Control and Cabin Amenities

Dual-zone automatic climate control is standard, allowing personalized temperature settings for driver and front passenger. Rear-seat vents improve airflow throughout the cabin, and a panoramic sunroof is available to create an open, airy atmosphere.

Storage and Practicality

The Santa Fe features a versatile cargo area with a low liftover height for easy loading. Rear seats fold flat in a 60/40 split to expand cargo space for larger items. Numerous cubbies, cupholders, and door pockets add practicality for everyday use.

- Power-adjustable driver's seat with memory function in higher trims.
- Wireless charging pad for compatible smartphones.
- Ambient interior lighting for a refined cabin environment.

Safety and Driver Assistance Technologies

Safety is a priority in the 2023 Hyundai Santa Fe, which comes equipped with an extensive suite of driver assistance features and crash protection systems. These technologies work together to enhance occupant safety and reduce the likelihood of accidents.

Standard Safety Features

All Santa Fe models include Hyundai SmartSense, a comprehensive package that features:

- Forward Collision-Avoidance Assist with Pedestrian Detection
- Lane Keeping Assist and Lane Following Assist
- Driver Attention Warning
- Rear Cross-Traffic Collision-Avoidance Assist
- Safe Exit Assist to prevent collisions when exiting the vehicle

Advanced Safety Upgrades

Higher trims offer additional safety enhancements such as Blind-Spot Collision-Avoidance Assist, Surround View Monitor for 360-degree visibility, and Highway Driving Assist for semi-autonomous driving capabilities on compatible highways.

Crash Test Ratings

The 2023 Santa Fe has earned strong safety ratings from reputable organizations, reflecting

its solid crashworthiness and effectiveness of active safety systems. These ratings contribute to peace of mind for families and individual drivers alike.

Technology and Infotainment Systems

The 2023 Hyundai Santa Fe integrates modern technology to keep occupants connected, entertained, and informed while on the road. User-friendly interfaces and compatibility with smartphones enhance the overall driving experience.

Touchscreen and Display Options

Standard models feature an 8-inch touchscreen infotainment system, while higher trims upgrade to a 10.25-inch display. Both systems support crisp graphics and intuitive menus for ease of use.

Connectivity Features

Apple CarPlay and Android Auto compatibility are standard, allowing seamless integration of mobile devices. Bluetooth hands-free calling and audio streaming are also included.

Audio System and Navigation

Basic audio systems provide clear sound quality, with available premium audio upgrades such as a Bose 12-speaker surround sound system. Integrated navigation with real-time traffic updates is offered on select trims to assist with route planning.

- Voice recognition for hands-free control of infotainment functions.
- Multiple USB ports for charging and data connectivity.
- Wireless device charging and optional head-up display for critical driving information.

Trim Levels and Pricing Overview

The 2023 Hyundai Santa Fe is available in several trim levels, each offering varying features and equipment to suit different needs and budgets. Understanding the differences among trims helps prospective buyers select the ideal configuration.

Base and Mid-Level Trims

The SE and SEL trims provide a balance of essential features and affordability. These trims come with standard safety technology, comfortable seating, and basic infotainment options suitable for most drivers.

Higher-End Trims

Limited and Calligraphy trims add luxury appointments such as leather seating, advanced driver assistance, larger infotainment screens, and premium audio systems. These trims focus on enhancing comfort and technology.

Hybrid and Plug-in Hybrid Trims

Hybrid and PHEV versions are offered primarily in mid to high trims, combining efficient powertrains with premium features. Pricing varies based on powertrain and included options.

- Starting prices typically range from the mid-\$20,000s for base models to the low \$40,000s for fully equipped trims.
- Optional packages allow customization of features such as towing, technology, and exterior styling.
- Competitive warranty coverage includes a 10-year/100,000-mile powertrain warranty.

Fuel Economy and Efficiency

The 2023 Hyundai Santa Fe delivers competitive fuel economy figures within the midsize SUV segment. Efficiency varies depending on the chosen powertrain and drivetrain configuration.

Gasoline Engine Efficiency

The standard 2.5-liter engine achieves an EPA-estimated fuel economy of approximately 25 mpg in the city and 28 mpg on the highway for front-wheel-drive models. All-wheel-drive variants see a slight reduction in efficiency.

Turbocharged Engine Economy

The turbocharged 2.5-liter engine yields an estimated 22 mpg city and 28 mpg highway, balancing power and fuel consumption.

Hybrid and Plug-in Hybrid Efficiency

The hybrid Santa Fe significantly improves mileage, with estimates around 36 mpg combined. The plug-in hybrid variant offers an all-electric range of approximately 30 miles and a combined fuel economy rating exceeding 80 MPGe when using electric power and gasoline combined.

- Regenerative braking helps recharge the hybrid battery during deceleration.
- Eco driving modes support maximized fuel savings.
- Real-time fuel economy displays assist drivers in monitoring efficiency.

Dimensions and Cargo Capacity

The 2023 Hyundai Santa Fe provides a spacious interior and practical cargo solutions, making it suitable for families and active lifestyles. Its dimensions contribute to comfortable seating and versatile storage capabilities.

Exterior Dimensions

The Santa Fe measures approximately 188.4 inches in length, 74.8 inches in width, and 66.1 inches in height. These dimensions allow for confident maneuverability without sacrificing interior space.

Interior Passenger Space

Generous headroom and legroom in both front and rear seats ensure comfort for all passengers. The vehicle's wide cabin design enhances shoulder room and overall spaciousness.

Cargo Space and Versatility

With rear seats upright, the cargo area offers about 36.4 cubic feet of space. Folding the rear seats flat expands the cargo capacity to nearly 72.1 cubic feet, accommodating larger items such as sports equipment or luggage.

- Split-folding rear seats enable partial expansion of cargo area while maintaining passenger seating.
- Underfloor storage compartments provide additional secure storage.

- Roof rails are standard or available for carrying bikes, kayaks, or cargo boxes.
