The film was produced by New Line Cinema, a relatively small studio at the time, with a modest budget of around \$1.1 million. Despite its financial limitations, *A Nightmare on Elm Street* went on to become a massive success, grossing over \$25 million at the box office. Its unexpected triumph helped establish New Line Cinema as a significant player in the film industry, earning the nickname "The House That Freddy Built."

Plot Synopsis

The plot centers around a group of teenagers living on Elm Street who are haunted by Freddy Krueger, portrayed by Robert Englund. Krueger is a disfigured child murderer who was killed by the parents of his victims. In a twist of fate, he returns from the dead to exact his revenge by invading the dreams of the teenagers.
