acura mdx 2019 technology package

Acura MDX 2019 Technology Package is an impressive offering that highlights the brand's commitment to innovation, luxury, and performance. The 2019 Acura MDX remains one of the most popular midsize SUVs on the market, and the Technology Package enhances its appeal with a host of advanced technological features, safety systems, and luxurious upgrades. In this article, we will dive into the key aspects of the Acura MDX 2019 Technology Package, exploring its features, capabilities, and overall value.

Overview of the Acura MDX

The Acura MDX is a three-row luxury SUV that combines versatility with a performance-oriented driving experience. Known for its spacious interior, strong engine performance, and advanced safety features, the MDX caters to families and professionals alike. The 2019 model year introduced several updates, including a refreshed design, improved technology, and enhanced comfort features.

Key Features of the Technology Package

The Acura MDX 2019 Technology Package includes an array of features that elevate the driving experience. These features focus on connectivity, navigation, entertainment, and safety, ensuring that drivers and passengers enjoy a modern, luxurious ride. Below are the primary components of the Technology Package:

1. Premium Audio System

- 10-Speaker Surround Sound System: One of the standout features of the Technology Package is the high-quality audio system. The 10-speaker setup delivers crisp and clear sound, enhancing every journey with rich audio experiences.
- Subwoofer: The inclusion of a subwoofer allows for deep bass tones, making music and media playback more immersive.
- Bluetooth Connectivity: The premium audio system includes Bluetooth functionality, enabling hands-free calling and audio streaming from compatible devices.

2. Navigation System

- Acura Navigation System: The Technology Package comes equipped with a state-of-the-art navigation system that features real-time traffic updates, helping drivers avoid congestion and reach their destinations efficiently.
- Voice Recognition: The intuitive voice recognition feature allows drivers to input destinations without taking their hands off the wheel, promoting safety and convenience.

3. Display and Interface

- Dual Screen Setup: The MDX features a dual-screen display that enhances usability. The upper screen provides navigation and audio information, while the lower screen allows for climate control and other settings.
- Apple CarPlay and Android Auto: Integration with smartphones is seamless, as both Apple CarPlay and Android Auto are included, allowing drivers to access their favorite apps and media directly through the vehicle's interface.

4. Advanced Safety and Driver Assistance Features

The Technology Package enhances the MDX's safety credentials with an array of advanced safety features, which include:

- Adaptive Cruise Control: This feature automatically adjusts the vehicle's speed to maintain a safe distance from the car ahead, making highway driving more comfortable.
- Collision Mitigation Braking System: The system can detect an imminent collision and automatically apply the brakes to prevent or mitigate the impact.
- Lane Keeping Assist System: This feature helps keep the vehicle centered in its lane, providing gentle steering assistance when needed.
- Road Departure Mitigation System: The system can detect when the vehicle is about to leave the roadway and take corrective action to prevent unintended departures.
- Blind Spot Information System: Alerts the driver to vehicles in adjacent lanes, enhancing safety during lane changes.

5. Comfort and Convenience Features

In addition to technology and safety, the Technology Package also focuses on comfort and convenience:

- Heated Front Seats: The front seats are heated, providing added comfort during colder months.
- Leather Upholstery: The interior features high-quality leather upholstery that enhances the luxurious feel of the cabin.
- Tri-Zone Automatic Climate Control: This system allows the driver, front passenger, and rear passengers to set their preferred temperature, ensuring everyone remains comfortable during the ride.
- Power-Folding Side Mirrors: The side mirrors can be folded in with the push of a button, making parking in tight spaces easier.

Performance and Driving Experience

The Acura MDX 2019 Technology Package is paired with a robust performance profile that makes it a joy to drive. Here are some key aspects of its performance:

1. Engine and Transmission

– 3.5-Liter V6 Engine: The MDX is powered by a 3.5-liter V6 engine that produces 290 horsepower and 267 lb-ft of torque. This engine provides ample power for both city driving and highway cruising.
– 9-Speed Automatic Transmission: The vehicle is equipped with a smooth-shifting 9-speed automatic transmission, which enhances fuel efficiency and acceleration.

2. All-Wheel Drive Capability

– Super Handling All-Wheel Drive (SH-AWD): The optional SH-AWD system enhances traction and handling in various driving conditions. It intelligently distributes power between the front and rear wheels, improving stability in corners and inclement weather.

3. Fuel Efficiency

– Fuel Economy Ratings: The MDX offers competitive fuel economy ratings for its class, with an EPA-estimated 20 mpg in the city and 27 mpg on the highway. This efficiency is enhanced by the advanced transmission and engine design.

Interior Space and Comfort

The interior of the Acura MDX is designed to provide a comfortable and spacious environment for all passengers. The Technology Package further enhances this experience:

1. Spacious Seating

– Seating Capacity: The MDX can comfortably seat up to seven passengers with its standard three-row configuration.
– Adjustable Second-Row Seats: The second-row seats can slide and recline, offering flexibility for passengers and cargo.

2. Cargo Space

– Generous Cargo Capacity: With all seats in use, the MDX offers 15.8 cubic feet of cargo space. Folding down the third row increases this capacity significantly, making it practical for families and travelers.
– Under-Floor Storage: The MDX features under-floor storage for smaller items, maximizing the use of available space.

Conclusion

The Acura MDX 2019 Technology Package is a well-rounded option for buyers seeking a luxury midsize SUV that excels in technology, safety, comfort, and performance. With its advanced features, spacious interior, and robust engine, the MDX stands out in a crowded marketplace. The Technology Package enhances the driving experience, ensuring that both drivers and passengers enjoy a modern and luxurious ride. Whether commuting, running errands, or embarking on family adventures, the Acura MDX 2019 with the Technology Package is an excellent choice that delivers on all fronts.

Frequently Asked Questions

What features are included in the 2019 Acura MDX Technology Package?

The 2019 Acura MDX Technology Package includes features such as a navigation system, a premium audio system with 10 speakers, Android Auto and Apple CarPlay integration, and additional driver assistance technologies like adaptive cruise control and a multi-view rear camera.

How does the Acura MDX Technology Package enhance safety?

The Technology Package enhances safety with advanced features such as forward collision warning, lane keeping assist, and a collision mitigation braking system, all of which work together to help prevent accidents.

Is the 2019 Acura MDX Technology Package worth the investment?

Whether the Technology Package is worth it depends on individual preferences for tech features and safety. Many users find the added conveniences and enhancements to navigation and audio systems justify the investment.

What is the price difference between the base model and the Technology Package for the 2019 Acura MDX?

The Technology Package adds approximately $4,000 to the base price of the 2019 Acura MDX, making it a mid-range option compared to the higher trim levels.

Can I retrofit the Technology Package features to a non-Technology Package 2019 Acura MDX?

While some features may be retrofitted, many components of the Technology Package, such as the navigation and enhanced audio system, are integrated into the vehicle's architecture, making a full retrofit impractical and costly.

What infotainment system does the 2019 Acura MDX Technology Package use?

The 2019 Acura MDX Technology Package uses the AcuraLink infotainment system, which includes a dual-screen setup allowing for easy access to navigation, audio, and other vehicle settings.

Does the 2019 Acura MDX Technology Package offer any connectivity options?

Yes, the Technology Package includes both Android Auto and Apple CarPlay, allowing seamless integration of smartphones for navigation, music, and hands-free calling.
