## How to Measure Yourself

To find the right size using the Amanda Uprichard size guide, accurate measurements are key. Here's how to measure yourself properly:

### Measuring Tips

1. Bust: Measure around the fullest part of your bust, ensuring the tape measure is level and not too tight.
2. Waist: Measure around your natural waistline, which is typically located above your belly button and below your ribcage.
3. Hips: Measure around the fullest part of your hips while standing with your feet together.
4. Inseam: For pants, measure from the top of your inner thigh down to your ankle. This will help you determine the length of the pants you may need.
5. Height: Knowing your height can also be helpful, especially for dresses or long garments, to ensure they hit at the right point on your body.

## Styling Tips Based on Size

Once you've determined your size using the Amanda Uprichard size guide, you can start thinking about how to style your new pieces. Here are some tips tailored to different sizes and fits:

### For Fitted Styles

- Highlight Your Curves: Use belts or fitted jackets to accentuate your waist. Pair with high heels to elongate your legs.
- Choose the Right Underwear: Invest in seamless or well-fitting undergarments to ensure a smooth silhouette.

## **For Relaxed Styles**

- Layering: Relaxed fits are perfect for layering. Add a fitted turtleneck under a loose dress for a chic, cozy look.
- Accessorize: Add statement jewelry or a bold handbag to elevate a relaxed outfit.

## **For A-Line Styles**

- Balance Proportions: Pair A-line skirts or dresses with fitted tops to create a balanced look.
- Footwear Choices: Opt for ankle boots or pointy-toed flats to elongate the legs further.

## **For Shift Styles**

- Belt It: Add a belt to a shift dress to create a more defined waist.
- Play with Patterns: Shift dresses are often perfect for prints; don't hesitate to choose bold patterns that express your personality.

## **Common Fit Issues and Solutions**

Even with a size guide, you might encounter some common fit issues. Here's how to address them:

### **Too Tight in the Bust**

- Solution: Consider sizing up or choosing styles with more stretch or a wrap design that can accommodate your bust.

### **Too Loose in the Waist**

- Solution: A tailor can easily adjust the waist of a dress or top. Alternatively, look for styles with adjustable waistbands.

### **Short Length on Dresses or Tops**

- Solution: If a dress is too short, consider wearing it as a tunic over leggings or high-waisted jeans for a trendy look.

## **Pants Too Long or Short**
