## Indigenous Peoples and Early Cultures

Long before European explorers set foot on the continent, North America was home to a multitude of Indigenous nations and cultures. These groups had rich traditions, languages, and social structures that varied widely across regions.

### Major Indigenous Cultures

- The Ancestral Puebloans: In the Southwest, they built intricate cliff dwellings and developed advanced agricultural techniques.
- The Mississippian Culture: Flourishing around the Mississippi River, they constructed large earthen mounds for religious and political purposes.
- The Iroquois Confederacy: In the Northeast, a sophisticated political alliance among several tribes, which influenced later American democratic principles.

These societies had their own systems of governance, trade networks, and spiritual beliefs, contributing to the rich cultural landscape of pre-colonial America.

## European Exploration and Colonization

The late 15th century marked the beginning of European exploration, driven by the desire for new trade routes and the quest for riches.

### Key Explorers and Their Contributions

- Christopher Columbus (1492): His voyages led to the widespread awareness of the Americas in Europe.
- John Cabot (1497): An Italian explorer credited with discovering parts of North America under the English flag.

- Hernán Cortés and Francisco Pizarro: Spanish conquistadors who conquered vast territories in Central and South America, which led to the establishment of Spanish colonies.

The Spanish, French, Dutch, and English established their presence in North America, each claiming territories and often clashing with Indigenous peoples.

## **Colonial America**

By the early 17th century, the English established their first permanent settlement in Jamestown, Virginia (1607). This event marked the beginning of significant English colonization.

  - Characterized by a diverse population and economic prosperity through agriculture and trade.
3. Southern Colonies: Maryland, Virginia, North Carolina, South Carolina, and Georgia.
  - Reliant on plantation agriculture and the labor of enslaved Africans.

- The Stamp Act (1765): A direct tax that incited widespread protest and led to the formation of the Sons of Liberty.
- The Boston Tea Party (1773): A protest against the Tea Act, where colonists dumped tea into Boston Harbor.

These events culminated in the First Continental Congress in 1774, where delegates from twelve colonies gathered to coordinate a response to British policies.
