### For the Pie Crust

- 250g plain flour
- 125g unsalted butter, chilled and cubed
- 1 tablespoon sugar
- A pinch of salt
- 1 large egg yolk
- Cold water, as needed

### For the Apple Filling

- 6 medium-sized apples (a mix of Bramley and eating apples for depth of flavor)
- 100g sugar (adjust based on the sweetness of the apples)
- 1 teaspoon ground cinnamon
- 1 tablespoon lemon juice
- 1 tablespoon plain flour (to thicken)
- 1 tablespoon butter (to dot over the filling)

### For the Topping (Optional)

- 1 egg, beaten (for egg wash)
- A sprinkle of sugar (for a crunchy finish)

## Preparation Steps for the Pie Crust

Making the pie crust is a fundamental step in ensuring your apple pie has a delicious, flaky base. Here's how to prepare it:

## **Step 1: Combine the Dry Ingredients**

1. In a large mixing bowl, sift together the plain flour, sugar, and salt.
2. Add the chilled, cubed butter to the flour mixture.

## **Step 2: Create the Dough**

1. Using your fingertips, rub the butter into the flour until the mixture resembles coarse breadcrumbs.
2. Add the egg yolk and mix well.
3. Gradually add cold water, one tablespoon at a time, until the dough comes together. Be careful not to overwork it.

## **Step 3: Chill the Dough**

1. Form the dough into a disc, wrap it in cling film, and refrigerate for at least 30 minutes. This chilling time is crucial for a flaky crust.

## **Preparing the Apple Filling**

While the dough is chilling, you can prepare the apple filling. The combination of different apple varieties enhances the flavor profile of your pie.

### **Step 1: Peel and Core the Apples**

1. Peel, core, and slice the apples evenly. Aim for about 1/4-inch thick slices to ensure even cooking.

### **Step 2: Mix the Filling Ingredients**

1. In a large bowl, combine the sliced apples with sugar, cinnamon, lemon juice, and flour.
2. Toss the mixture gently to ensure the apples are evenly coated.

### **Step 3: Let it Rest**

1. Allow the filling to sit for about 15 minutes. This will help the flavors meld and release some of the juices.

## **Assembling the Apple Pie**

With your crust and filling ready, it's time to assemble the pie.

## Step 1: Roll Out the Dough

1. Preheat your oven to 200°C (400°F).
2. On a floured surface, roll out half of the chilled dough to fit a 23 cm (9-inch) pie dish. The dough should be about 3 mm thick.
3. Carefully transfer the rolled-out dough to the pie dish, pressing it gently into the edges.

## Step 2: Add the Filling

1. Spoon the apple filling into the prepared pie crust, ensuring an even distribution. Dot the filling with small pieces of butter for added richness.

## Step 3: Top the Pie

1. Roll out the second half of the dough and place it over the filling. You can either create a full crust or cut slits for a lattice effect.
2. If using a full top crust, make a few slits to allow steam to escape.
3. Trim any excess dough and crimp the edges to seal the pie.

## Step 4: Apply the Egg Wash

1. Brush the top of the pie with beaten egg to give it a beautiful golden finish.
2. Sprinkle a little sugar on top for added sweetness and crunch.

## Baking the Apple Pie

Baking is the final step in the process, where all your hard work comes together.

### Step 1: Bake the Pie

1. Place the assembled pie in the preheated oven.
2. Bake for about 45-50 minutes, or until the crust is golden brown and the filling is bubbling.

### Step 2: Cool Before Serving

1. Once baked, remove the pie from the oven and allow it to cool for at least 30 minutes before slicing. This resting time helps the filling set.

## Serving Suggestions

Apple pie can be enjoyed in numerous ways, and Jamie Oliver often emphasizes the importance of serving it simply yet deliciously.

## Classic Pairings

- Serve warm with a scoop of vanilla ice cream.
- A dollop of freshly whipped cream adds a delightful richness.
- For a twist, drizzle with caramel sauce or serve with a slice of sharp cheddar cheese.

## Storing Leftovers

- Keep any leftover pie covered in the refrigerator for up to 3 days.
- Reheat slices in the oven or microwave before serving.

## Tips for Perfecting Your Apple Pie

To elevate your apple pie game, consider the following tips:

1. Choose the Right Apples: Mixing tart and sweet apples creates a more complex flavor. Bramley apples are great for tartness, while Honeycrisp or Fuji add sweetness.
2. Don't Skimp on the Spice: A pinch of nutmeg or ginger can complement the cinnamon beautifully.
3. Use Cold Ingredients: Keeping your butter and water cold will help achieve a flaky crust.
4. Let the Filling Drain: If your filling is particularly juicy, consider letting it drain in a colander for a few minutes to prevent a soggy bottom.
