- Durable Construction:** Made from puncture-resistant materials, the spa is designed to withstand regular use while maintaining its integrity.
- Digital Control Panel:** The user-friendly control panel allows you to adjust the temperature and activate the air jets with ease.

Setting Up Your Bestway SaluSpa Madrid

Setting up your Bestway SaluSpa Madrid is straightforward, but it is essential to follow the manual carefully to ensure a seamless experience.

Step-by-Step Setup Guide

1. Choose a Location:

- Select a flat, level surface that can support the weight of the filled spa.
- Ensure there are no sharp objects nearby that could damage the inflatable material.
- Place the spa away from any overhead obstructions.

2. Unpack the Spa:

- Carefully remove the spa from its packaging.
- Lay it out flat on the chosen surface.

3. Inflate the Spa:

- Use the included air pump to inflate the spa.
- Ensure that the spa is fully inflated before proceeding.

4. Fill with Water:

- Use a garden hose to fill the spa with water.
- Fill until the water level reaches the indicated line on the interior wall.

5. Connect the Heater and Pump:

- Plug in the heater and pump unit.
- Ensure that all connections are secure.

6. Adjust Temperature:

- Use the digital control panel to set your desired water temperature.
- Allow the spa to heat up for several hours before use.

Operating the Bestway SaluSpa Madrid

Once your spa is set up, operating it is simple. The digital control panel provides all the necessary functions for a relaxing experience.

Control Panel Functions

- Temperature Control: Adjust the water temperature to your preference.
- Air Jet Activation: Turn on the air jet system for a soothing massage effect.
- Timer Setting: Set a timer for the heater to optimize energy usage.

Usage Tips

- Preheat Water: It is advisable to preheat the water before your spa session, as this will enhance your experience.
- Regular Check: Periodically check the water temperature and adjust as needed.
- Maintain Water Levels: Ensure the water level stays above the minimum line for optimal

performance.

Maintenance of the Bestway SaluSpa Madrid

Proper maintenance of your SaluSpa Madrid will prolong its lifespan and ensure a safe and enjoyable soaking experience.

Water Care

1. Chlorination:

- Regularly test and maintain the chlorine levels in the water to prevent bacteria and algae growth.
- Use chlorine tablets or granules as recommended in the manual.

2. pH Levels:

- Check the pH levels regularly and adjust them to keep the water balanced (ideally between 7.2 and 7.8).

3. Cleaning:

- Clean the water filter regularly to keep the water clear and free from debris.
- Use a soft cloth to wipe down the interior and exterior of the spa.

4. Draining and Refilling:

- It's recommended to drain and refill the spa every 1-2 weeks, depending on usage.

Winter Care

- Storing the Spa: If you plan to store the spa during winter, ensure it is completely drained and dried to prevent mold and mildew.
- Heating: If using the spa in colder months, consider purchasing an insulated cover to retain heat.

Troubleshooting Common Issues

While the Bestway SaluSpa Madrid is designed for durability and ease of use, some issues may arise. Here are common problems and their solutions.

Issue 1: Spa Won't Heat Up

- Check Power Supply: Ensure the unit is properly plugged in and the outlet is functioning.
- Temperature Setting: Confirm that the desired temperature is set correctly on the control

panel.

Issue 2: Air Jets Not Functioning

- Check for Blockages: Inspect the air jet outlets for any blockages that may hinder airflow.
- Pump Functionality: Ensure that the air pump is functioning and that all connections are secure.

Issue 3: Water Cloudiness

- Test Water Chemistry: Use a water testing kit to check chlorine and pH levels.
- Replace Filter: If the filter is dirty, replace it to ensure clean water circulation.

User Reviews and Feedback

The Bestway SaluSpa Madrid has received positive feedback from users for its ease of use, comfort, and affordability. Here are some highlights from user reviews:

- Comfort: Many users praise the comfort of the spa, especially with the air jet system providing a relaxing experience.
- Ease of Setup: Users appreciate how quickly and easily they can set up the spa, often taking less than an hour.
- Value for Money: Customers frequently mention that the SaluSpa Madrid offers a great balance between quality and price compared to traditional hot tubs.

Conversely, some users have raised concerns regarding the longevity of the inflatable material with continuous use. However, with proper maintenance and care, many users find that the spa lasts for several seasons.

Conclusion

The Bestway SaluSpa Madrid is an excellent choice for those seeking an affordable and portable hot tub experience.
