The Historical Context of Blasphemy Laws

- Colonial Origins: Blasphemy laws have their roots in colonial India, which inherited laws from British governance. These laws were meant to maintain public order but have since evolved into tools for oppression.
- Post-Independence Developments: After the partition of India and the creation of Pakistan in 1947, these laws were entrenched further, particularly during the Zia-ul-Haq regime in the 1980s when the laws were amended to include harsher penalties.

Impact on Society

- Fear and Censorship: The fear of blasphemy allegations has led to self-censorship among writers, artists, and intellectuals.
- Vigilante Justice: There have been numerous instances where individuals accused of blasphemy have faced mob violence, leading to tragic outcomes.
