## Understanding Character Defects in AA Recovery

Character defects are habitual patterns of thinking, behavior, and emotional responses that hinder an individual's ability to live a healthy and sober life. In Alcoholics Anonymous, these defects are seen as obstacles to personal growth and spiritual development. Identifying and addressing character defects is critical to breaking destructive cycles and fostering long-term recovery.

These defects often include traits such as selfishness, dishonesty, fear, resentment, and pride, which can fuel addictive behaviors. The 12-step program encourages members to conduct a rigorous self-examination to uncover these flaws and work toward their removal. This process supports individuals in building a more honest, humble, and balanced approach to life.

## Overview of Step 6: Becoming Entirely Ready

Step 6 of the AA program states: "Were entirely ready to have God remove all these defects of character." This step serves as a pivotal moment in recovery, where the individual acknowledges the necessity of change and prepares mentally and spiritually for transformation.

Becoming entirely ready involves a deep willingness to let go of harmful behaviors and attitudes. It

requires honest reflection and acceptance of the impact these defects have had on one's life and relationships. This readiness is crucial because it sets the foundation for the next step, which involves seeking help beyond oneself.

## **The Significance of Readiness**

Readiness is not merely an intellectual agreement but a heartfelt commitment to change. It often involves overcoming resistance and fear about letting go of familiar but destructive patterns. Step 6 encourages a surrender of control, which is essential for healing and growth.

## **Indicators of Being Entirely Ready**

- A clear recognition of the negative effects of character defects
- Willingness to accept spiritual guidance or support
- Openness to change and personal growth
- Reduced defensiveness about past behaviors
- Commitment to living in alignment with recovery principles

## **Overview of Step 7: Humbly Asking for Removal**

Step 7 states: "Humbly asked Him to remove our shortcomings." This step follows readiness with active humility and a request for assistance in overcoming character defects. It acknowledges that self-will alone is insufficient and emphasizes reliance on a higher power or spiritual source.

Humility in this context involves recognizing personal limitations and trusting in a process greater than oneself. It is a spiritual surrender that invites healing and the gradual elimination of defects that impede recovery and well-being.

## **The Role of Humility in Step 7**

Humility is often challenging for individuals struggling with addiction because many character defects stem from pride, denial, or control issues. Step 7 encourages a sincere attitude of humility, which fosters openness to transformation and new ways of living.

## **Practical Aspects of Asking for Removal**

- Engaging in prayer, meditation, or reflection

- Expressing sincere intention to change
- Seeking support from sponsors, peers, or spiritual advisors
- Committing to ongoing self-examination and growth

## Purpose and Benefits of Step 6 and 7 AA Worksheets

Character defects step 6 and 7 AA worksheets serve as structured tools designed to facilitate the introspective and spiritual work required in these steps. These worksheets guide individuals through identifying specific defects, assessing readiness to change, and articulating humble requests for removal.

The worksheets often include prompts, questions, and exercises that encourage deep reflection and accountability. They help translate abstract concepts into tangible actions, making the process more accessible and manageable.

## Benefits of Using Worksheets

- Provides clear structure for complex emotional work
- Encourages consistency and regular self-assessment
- Helps track progress and identify recurring patterns
- Facilitates communication with sponsors and support groups
- Supports spiritual growth through focused reflection

## Common Character Defects Addressed in Steps 6 and 7

During Steps 6 and 7, individuals commonly identify a range of character defects that have contributed to their struggles with addiction and life challenges. These defects vary but often include:

- **Resentment:** Holding onto anger or grudges that impair emotional health.
- **Fear:** Avoidance and anxiety that limit personal courage.
- **Selfishness:** Prioritizing personal desires over the needs of others.
- **Dishonesty:** Engaging in deceitful behavior that undermines trust.

- **Pride:** An inflated sense of self that blocks humility and openness.
- **Envy:** Jealousy that breeds dissatisfaction and unhappiness.
- **Intolerance:** Lack of acceptance toward others' differences or opinions.

Identifying these defects allows individuals to direct their efforts toward meaningful change and healing.

## How to Use Character Defects Step 6 and 7 AA Worksheets Effectively

To maximize the benefits of character defects step 6 and 7 AA worksheets, it is important to approach them with honesty, openness, and regularity. These worksheets are most effective when integrated into an ongoing recovery routine that includes support from sponsors and peer groups.

Key strategies for effective use include:

1. **Set aside dedicated time:** Regularly schedule time to thoughtfully complete the worksheets without distractions.
2. **Be thorough and honest:** Avoid minimizing or rationalizing defects; candid self-examination is essential.
3. **Reflect on worksheet responses:** Use answers as starting points for deeper personal reflection or discussion.
4. **Discuss findings with a sponsor:** Sharing insights can provide accountability and additional perspectives.
5. **Use the worksheets as living documents:** Revisit and update them as growth occurs and new insights emerge.

By engaging with these worksheets diligently, individuals can support their spiritual journey through Steps 6 and 7 and build a foundation for sustained recovery.
