Civil War Reconstruction iCivics Answer Key is a vital resource for educators and students alike, providing insights into the complex period following the American Civil War. Reconstruction, which lasted from 1865 to 1877, was a significant era in U.S. history characterized by attempts to reintegrate the Southern states back into the Union and address the status of the newly freed African Americans. This article will explore the objectives, challenges, and outcomes of Reconstruction, as well as how iCivics can facilitate a deeper understanding of this era.

Understanding Reconstruction

Reconstruction was an attempt to solve the problems that arose from the Civil War, particularly concerning the integration of the Southern states and the rights of newly freed slaves. The era is often divided into two phases: Presidential Reconstruction and Congressional (or Radical) Reconstruction.

Presidential Reconstruction (1865-1867)

Presidential Reconstruction began under President Abraham Lincoln and continued under his successor, Andrew Johnson. The main goals during this phase included:

1. **Restoration of the Union:** Lincoln aimed for a quick reconciliation with the South to restore the Union as smoothly as possible. His Ten Percent Plan allowed Southern states to rejoin the Union if 10% of their voters took an oath of allegiance to the Union.
2. **Limited Rights for Freedmen:** Johnson favored a lenient approach towards the South, advocating for limited civil rights for freed slaves. His policies often favored white Southerners, leading to significant backlash from Congress.
3. **Black Codes:** Southern states enacted Black Codes to restrict the freedoms of African Americans, which fueled tensions between the North and South.

Congressional Reconstruction (1867-1877)

In response to the failures of Presidential Reconstruction, Congress took control of the process, leading to a more radical approach. This phase included:

1. **Military Districts:** The South was divided into five military districts governed by Union generals to

enforce new laws and protect the rights of African Americans.

2. 14th and 15th Amendments: These amendments were crucial in ensuring citizenship and voting rights for African Americans. The 14th Amendment granted citizenship to all persons born or naturalized in the U.S., while the 15th Amendment prohibited denying the right to vote based on race.

3. Impeachment of Andrew Johnson: Johnson's opposition to Congressional Reconstruction led to his impeachment, though he was acquitted by one vote.

Resistance from Southern Whites

Many white Southerners resisted changes brought about by Reconstruction. Groups like the Ku Klux Klan emerged, using violence and intimidation to suppress African American rights.

Economic Hardships

The Southern economy was in ruins after the Civil War, leading to widespread poverty. Many African Americans found themselves in sharecropping arrangements that perpetuated cycles of poverty and debt.

Political Compromise and the End of Reconstruction

The Compromise of 1877 effectively ended Reconstruction. In exchange for resolving a contested presidential election, Republicans agreed to withdraw federal troops from the South, paving the way for the re-establishment of white Democratic rule and the implementation of Jim Crow laws.

The Legacy of Reconstruction

The legacy of Reconstruction is complex and multifaceted. While it made significant strides toward civil rights and equality, its failures also laid the groundwork for systemic racism and segregation that would persist for decades.

Positive Outcomes

1. Legal Foundations for Civil Rights: The 14th and 15th Amendments remain crucial in the ongoing struggle for civil rights in the United States.

2. **Political Participation:** Reconstruction saw the election of African Americans to political office, which was a significant step toward representation.

Negative Outcomes

1. **Rise of Jim Crow Laws:** The withdrawal of federal support led to the enactment of discriminatory laws that enforced racial segregation.

2. **Continued Violence and Intimidation:** Organizations like the Ku Klux Klan used terror tactics to undermine the rights of African Americans, instilling fear and limiting their participation in society.
