1. Closed form: Words are combined without any spaces (e.g., "notebook," "sunflower").
2. Hyphenated form: Words are connected with a hyphen (e.g., "mother-in-law," "well-being").
3. Open form: Words are used together but remain separate (e.g., "ice cream," "post office").

Understanding these forms is crucial for students as they learn to recognize and use compound words in their everyday language.
